I am a UI/UX designer with web development skills. I love creating user-centred designs that improve the user experience. I value collaboration and design user-friendly products and services.

## Projects

### GeoFree, Web Application Design

- Collaborated with a team of designers, developers, backend and data science members to create a web app for users to post and search for free items.
- Played an active role in all stages of the design process, taking the Initiation & led the development of the app's branding and messaging.
- Utilized best practices in UX design to ensure a seamless user experience. Conducted user research and testing to gather feedback and iterate on design concepts.

### Creative kids of Berlin, Website Redesign

- Redesigning an old website to improve user experience and engagement.
- Implementing design changes based on user feedback and best practices in UX design.

### Cook like-a-chef, Mobile App Design

- Designed a mobile app to provide users with personalized online cooking classes.
- Leveraged user feedback and research insights to designing a product that is both highly functional and aesthetically pleasing.
